**AND SOOOOO much more!**

# Greetings from the Chapter Director

*So Happy to be back!!*

**Hellooooo my friends,**

My husband Mike and I are on our last trip before the summer ends. At this time we are with friends riding our Goldwings among the beautiful cities and sights in British Columbia and Alaska.

Our Itinerary:

**British Columbia:** Chilliwack, Williams Lake, Chetwynd, Fort Nelson, Watson Lake, Haines Junction,

**Alaska:** Tok, Fairbanks, Denali Park, Anchorage, Rest Day in Anchorage, Homer, Palmer, Tok .....then to BC cities listed in reverse order , ending in Seattle.

Thanks to those of you volunteered your time for the STP on behalf of GWTA. Also I would like to thank those of you who volunteer their time and provide motorcycle support for local charities. Maybe we can attract potential new friends.

Meanwhile there is still room .....

**GWTA WA district "After Labor Day CampOut"** Sept 6<sup>th</sup> to 9<sup>th</sup>. Please be sure to mention that you are with a Goldwing Chapter and your Chapter Director name. Squaw Rock 509-658-2800.

I will not be at the July monthly meeting.

Cheers,

*Jocelyn Piechowiak*

# Thankfully, summer is in full swing. I Hope you are doing some riding.

On the day of our June meeting there was a slight scheduling conflict. The Tour de Blast in Toutle was happening and that kept some of us from attending the Chapter A meeting. Those participating were, Mike Briese, Doug Clark, Joe Diambri & his lady friend, Rose Hibbs, Bruce Hibbs, Kevin Lowe, Mike Miller, Vic Parr, Harry Rossignol and David Van Nice.

We spent the day riding east and west on SR 504 between Toutle Lake High School and Coldwater Ridge Visitor Center, about 66 miles round trip, keeping an eye out for bicyclists in distress. There were a few with mechanical difficulties but no medical issues or accidents. A good day of riding for them and us. At the end of the day there was a spaghetti feed for participants and escorts, complete with tossed salad, garlic bread and ice cream sundaes for desert.

Two weeks later, I was on my way to Corona, CA to visit family. It was a good two day ride down and two day ride back. However, the week prior was a bit hectic getting Gold Wing ready to go.

I had planned on mounting new tires that week and heading south the next. I had a bit of a problem with that due to wheel/tire balance issues. I typically use balance beads inside the tires rather than conventional wheel weights stuck to the wheels. Beads have always been reliable but for some reason, this time I had an issue. As long as the beads continue to free float inside the tire, the tires should remain balanced for the life of the tread. It has worked so well for me in the past that I noticed it even eliminated the cupping or shingling of the tread as the tires got nearer the end of their tread life. Unfortunately I didn't figure out what caused the balancing problem until after the 2500 mile ride to southern California and back.

When I returned home, I removed the wheels and dismounted the tires expecting to find the beads stuck in one place inside the tire. Nope. They were free floating. I removed the beads and remounted the tires. Static balancing revealed that the rear tire only needed a quarter ounce of weight to balance it. The front tire required only one ounce. These Bridgestone's were well made.

General rule of thumb for the beads is to install two ounces of beads per tire and you should be good to go. Not this time I guess. Since the wheel and tire assemblies were already nearly balanced without adding any weight, the balance beads actually caused an imbalance condition. Every time the bike would stop the beads would settle to the bottom of the tire, as they should. Each new rotation of the wheel and tire would give the feel of tires being out of balance until the beads would re-distribute themselves to achieve balance once again.

I guess balance beads are not always the answer to simple tire balancing. In the future, I think I will check the balance of the wheel and tire assemblies before installing any balance beads. If more than an ounce of weight is necessary to balance the assembly, then beads will work out very well. anything under that and it will be necessary to use standard wheel weights, or maybe fewer beads.

I do like the fact that the tires remain balanced throughout their life regardless of the wear on the tread. Cupping and Shingling of the tread is not a good thing to happen to the tread on the tires. By the way, the tires I used this time were Bridgestone Excedra G709-130/70HR18 Front, G704-180/60HR16 Rear.

**The Famous WA"A" 5 Aces Ride.....August 31st ,2024!**

At Chapter "A" we've noticed that 4 months each year have an additional 5th Saturday.

We at Chapter "A" honor those extra Saturdays with an "Ice Cream Ride" aka The Famous WA "A" 5 Aces Ride. **The Chapter is buying!!**

Suggestions for destinations are welcome.

## Goldwing Preventative Maintenance

Just a few notes about the seat that I wrote about last month. The seat was bought from a guy in Arkansas. Not knowing how much it was going to be, I told him that for the \$200.00 cost of the seat then it would still be much cheaper than buying a new one for \$1500.00.

The shipping costs were \$247.00. Seat cost was \$200.00. Still less than one third the cost of a new seat. I'm pretty happy about that!

The old seat that was taken off of my bike still has the wiring intact but not a heating element. Right now it's in a box in my shed. Not sure what I'm going to do with it at this point.

My shoulder is getting much better. Although the Valkyrie is still much harder to ride than the Wing. The handlebars are much wider. My left arm just doesn't want to go out that far.

I took a trip to Alabama this past week to say goodbye to a very good friend. Mark Gallop was with Chapter F and Y in the early years. I lived with him in the late 1990's at an apartment in Auburn.

Mark retired in 2022 from his business, Doors West in Auburn. He moved to Luverne, Alabama and built a nice house with a huge shop and a pool.

He found out he had COPD about 9 months ago and passed away on Fathers day. It's been a trying time for me as I really idolized him. He was awesome. Just a good man. His obituary can be found at: [greenhillsfuneralhome.net](http://greenhillsfuneralhome.net)

Ride safe everyone.

## June 29, 2024 5 Aces Ice Cream Run. Destination Quilcine WA.

The ride north along Hood Canal was beautiful n perfect temp. We had 6 bikes 7 people. We enjoyed the special huckleberry ice cream. The Quilly restaraunt across the street called us for lunch. I thanked the sweet waitress for allowing me to bring my pooch into the AC. The ride continued north across the Hood Canal bridge. The east side riders took the Kingston ferry home. The others went south home. What a wonderful day.

# Guess who spent time in Canada recently.....

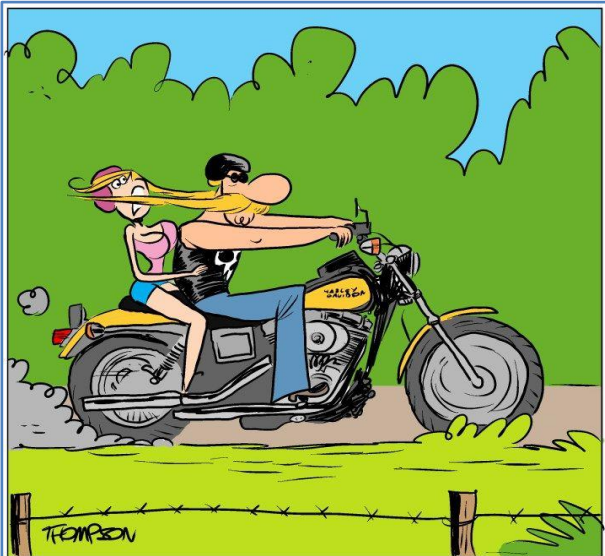

Howie Dickerson GWTA WA C CD and friends explored the Canadian Rockies for a week.

I, Jocelyn Piechowiak GWTA WA A CD and friends are on a 3 week adventure to BC and AK. My story and pictures will be in the July issue. AND.....

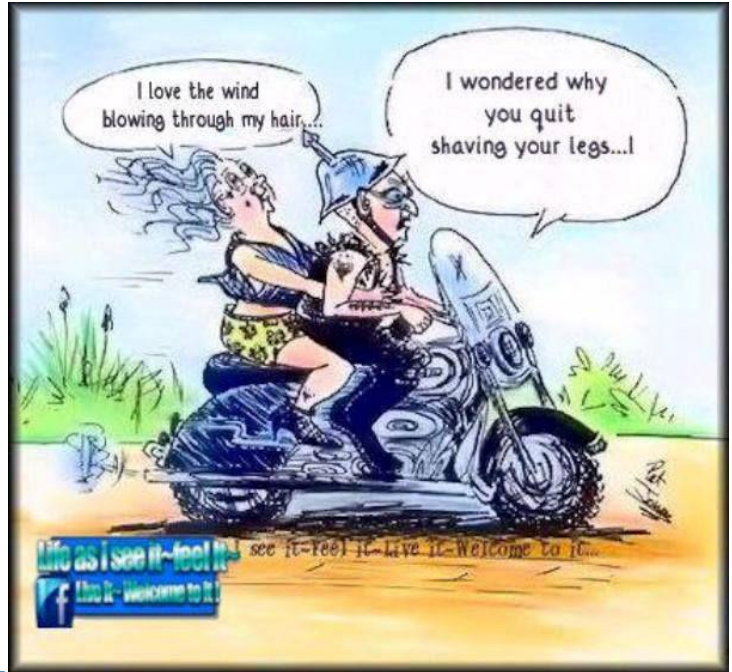

GWTA WA Kevin Lowe and GW WA Garry Mollerstuen went to up to Osoyoos Canada and back down through Omak visited a couple of ghost towns. It was a 2.5 ride!

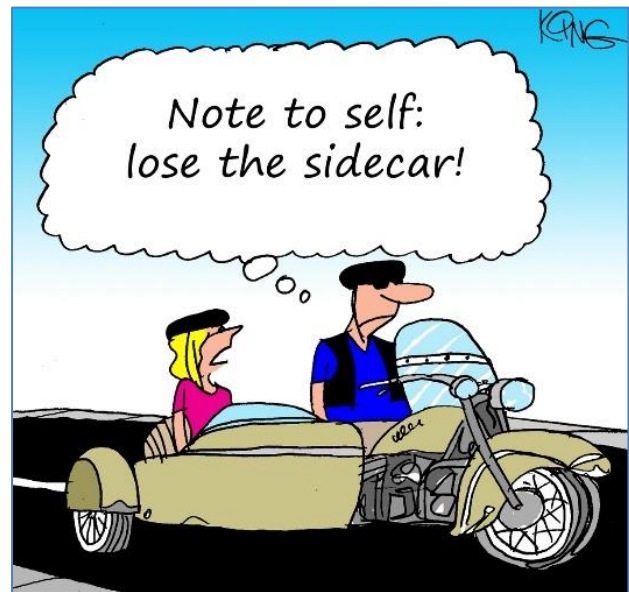

"I'D LIKE TO TALK TO YOU ABOUT GETTING YOUR MUSTACHE TRIMMED."

"What do you mean you were having so much fun riding with your buddies you lost track of time? You were supposed to be home over a year ago!"

"You were going too slow, then you were going too fast. You hit every pothole and you're making the turns too wide. And another thing..."

## **WA“A” Activities**

Hello former GWRRA members

Bruce Smith here. 858-336-1300.

At 75 yo, my riding sunset has arrived. I am a former CA F member (San Diego), now living near you in Gig Harbor.

I wish to sell my '09 Gold Wing / Audio-Comfort-Nav, ABS. Garaged, 46K easy miles, good tread, and maintained w shop receipts. Although not ridden in 2 yrs, it's a good machine with a few bells.

Auto Trader suggests \$10K and 9K. KBB suggests \$11K. Ten K sounds about right. Nice PacNorwest weather now and adventure awaits!

Kindly pass the word.
