AND SOOOOO much more!

Webmaster

March is here and the weather is getting so much better.

Riding is picking up again. Harry, Kevin and I visited WA-C for breakfast on March 9th. It was a relatively clear day and the ride was pleasant headed both north and south. WA-C had a planned day of shooting at a local firing range. Kevin tagged along but Harry and I headed south for home.

Thursday March 14 was Pi π Day. Earlier this month I had considered going to Liberty Café on Pi Day. Harry had even scheduled a ride to Liberty for Saturday the 16th but a little investigation revealed that Liberty Café would be closed all month long. Drat. That kind of shot down that idea.

A day or so later, the weather was forecast to be clear and sunny starting Wednesday afternoon. So Wednesday night I just knew there had to be a suitable destination for π . I remembered that the Copper Creek Restaurant on SR 706 had excellent blackberry pie and it was only an hours ride from Tacoma to Ashford. It was late so I really couldn't make any calls to see if anyone would be interested in riding on Thursday morning. I would just have to do it alone.

The ride was excellent and the Pie was superb. I hope all of you thought about Pi Day and got your piece of π .

The following weekend, Harry, Ron, Dennis and Kenny met for breakfast at the Rainbow Cafe prior to the ride to Cle Elum for Pie. Michael & Jocelyn P. and I showed up for the ride but not breakfast. During the ride, Kenny left us in Kent to tend to other matters. We stopped at the Cle Elum Safeway for fuel and a comfort break. After the break it was time to ride the Upper Peoh Point Rd and Thorp-Prarie Rd. A nice ride which culminated at the Cottage Cafe in Cle Elum for some much needed refreshment (Pie & Coffee).

After pie, it was time to head home. It was a wonderfully comfortable day of about 72° and clear skies.

Don't forget our meeting on Saturday the 23rd and the Maintenance Day gathering at Bill's Man Cave after breakfast.

Mike Briese
WA-A Webmaster

Goldwing Preventative Maintenance

Dennis Murphy

It's been an interesting couple of weeks.

I was trying to get my Goldwing started after work a week ago Friday. It would turn over like crazy but it just wouldn't start.

I called Mike Breise but he was out to eat with his bride. We talked about what the problem might be.

It did the same thing when I bought it in September. Honda said it was a loose connection. Plugged it in and haven't had a problem until now.

My friend Jerry came to my house and hooked up my trailer and came to Kent to rescue me. Wouldn't you know it, it started right up and I rode it home.

Mike came over on Sunday and we took the connector apart, sprayed some cleaner in it and....It's been working great until tonight.

I was finally able to get the code from it. 19. Pulse generator error code.

Looking at a post on GoldwingDocs.com, it seems that these go out a little at a time. Before they fail completely. Time to change it. So, if you have a problem and the F1 lights comes on, see the last 3 pages of this document to see what it means.

Motorcycle Safety

Always perform a visual safety check before starting your Ride.

Perform a T-Clock **Motorcycle Safety Checklist**

T-CLOCK stands for:

- * Tires & wheel
- * Controls
- * Lights & electrics
- * Oil & fluids
- * Chassis
- * Kickstand

Ride Safe & Don't miss the Fun”

CHUCKLES!

MARCH MADNESS

Sunshine Committee

Jocelyn and Michael Piechowiak

For our third annual four-wheel electric vehicle roadtrip we will follow most of Route 66 starting in California. We gave ourselves plenty of time to stop often to take in this historic route. Of course we will be seeing family and friends along the way. We will stay on the east coast for a couple months where we were raised. We will return in time to join friends in a 3 week Goldwing Ride to Alaska in July. We will do our best to document this bucket list item.

That being said ...Dianna Hemmi has volunteered to be the Sunshine Gal in my absence. Thank You Dianna! I will be sending out the Hallmark cards from April to August wherever we are in the USA. So watch those postmarks if celebrating a special occasion.

I look forward to meeting and greeting all the new friends the chapter makes in my absence. See you at the March and then August meetings.

Hugs.

Jocelyn "Sunshine" Piechowiak

March Celebrations

Birthdays:

2nd Don Hatley & Patty Johnson

20th Joanne Beard

26th Joe Ennaro

Anniversaries:

16th Michael & Jocelyn Piechowiak

22nd Gary & Vonda Brest

BLUE MOUNTAIN RENDEZVOUS, MAY 24-27, 2024

EAGLE WINGS MOTORCYCLE ASSOCIATION

Hello, like minded adventurer's;

We invite you to the “Blue Mountain Rendezvous” (sponsored by the Blue Mountain Road Runners” Eagle Wings Motorcycle Assoc. (EWMA) Chapter R.

We hope that you will come and join us this coming Memorial Day weekend May 24-27 for a getaway at the base of the beautiful Blue Mountains at a great place called “Junior Show” grounds in Milton-Freewater Oregon. <https://www.mfjrshow.com/> .

DIRECTIONS; North of Milton-Freewater, Ore. at Junior Show Grounds located on Highway 11, mile post 33, 2.4 miles south of the Washington/Oregon State Line, Highway 11, (behind Kelly’s Restaurant & Lounge)

There is a pavilion for meeting, game playing, sit down meals, etc.. Also, a grassed camping area with large tree’s, some hook-ups to 30amp, 110v, and non-potable water. Facilities for restrooms with showers freshly rebuilt last year.

Our team will be making you feel right at home, prepping all your meals. Leading rides around the area and into the Blue Mountains also setting up games for you. There will be routes available if you want to ride in a different direction.

If you have an RV, camper, or tent, we have places on site for you (it is limited), so call the phone number on the registration to reserve your spot.

If you want to stay in a motel, please make reservations soon to make sure you have a place. A place to have fun, explore, meet new folks, or just relax. There are towns close and far with history and fun things. Some but not all towns etc. are listed below.

The below are some, but not all Towns & sites. Included approx. miles and time one way from the Show grounds.

Walla Walla Wa	8 miles, War memorial, etc.
Milton-Freewater Ore	2 miles, Frazier Farm Museum.
Pendelton Ore	37 miles, Woolen mill, underground, etc.
Tollgate, Ore	37ish miles, Langdon Lake, Spout Springs, Ore
Elgin Ore	51 miles
Minam Ore	64 miles
Wallow (town) Ore	78 miles
Lostine Ore	85 miles
Enterprise Ore	95 miles
Joseph Ore	102 miles
Wallowa Lake State Park Ore	105 miles (approx. 2hrs 15min)

Also, “**the Rattlesnake loop**” a popular ride.

-Junior Show Grounds to Clarkston WA-129 -105 miles (2hrs) Lewiston ID is just across the bridge).

-Clarkston Wa. to Enterprise Ore. -85 miles (2hrs).

-Enterprise Ore to Junior Show Ore. -95 miles (2hrs) an approx.

Total round trip ride is 286 miles, 6hrs not including stops, fuel, or eats.

Please take the time to fill out the registration and send asap, also please take notice to the early registration postmark date.

We hope that you come and join us.

We don't want to miss anyone that might be waiting for this, so Please send to contacts that I may have missed.

Thank you so much for your help.

Sincerely

Blue Mountain Road Runners
Chapter “R” (32yrs, since 1984)
Charter Chapter EWMA

Editors Note: The Registration is available on our website on the May Calendar of Events.

Come Join the fun--- June 22, 2024

2002 Yellow Honda Goldwing 1800 with matching unigo trailer for SALE

We are/were part of GWTA Chapter B for Washington State. We have dissolved our chapter but still have friends we will have for life. I am no longer able to ride and want a good home for her. She has so much more life in her. She is a good bike and would love to have someone who would enjoy her get her. She has a few miles on her but in excellent condition, she has many more miles in her.

2002 Honda Goldwing 1800 with matching unigo trailer. 145,000 miles, in excellent condition and runs exceptional. Plenty of upgrades, everything works great, please give us a call and we can answer any questions you may have.

Thank you,
Larry and Debi Selfridge

ALMOST THE END.

How to read the FI (fault indicator) light.

If FI (Fault Indicator) light comes on pull over but DO NOT shut bike off. Put in neutral and put side stand down, RPM's below 1500. This signals the ECM to send the error code to the FI light. Count the number of long and short flashes. This will give you the error code.

If you shut the bike off the error code is lost - sort of. It will be retained in the ECM but it is harder to get out. If the bike stops and then will not restart you can get the FI light to flash the error code by cranking the engine for 10 seconds. The FI light will then flash the error code.

Long Blink = 10. Short Blink = 1

i.e. long long long short short short = 33 check error code 33

Number of MIL blinks .Symptoms .Cause

* No blinks • Engine does not start

• Open circuit in the power input and ground wires of the ECM: • Faulty bank angle sensor

• Open circuit in bank angle sensor related wires: • Faulty FI IGN relay: • Open circuit in FI IGN relay related wires

• Faulty engine stop switch: • Open circuit in engine stop switch related wires: • Faulty ECM: • Blown FI IGN fuse (20 A)

• Blown ST. KILL fuse (10 A):

* No blinks • Engine operates normally

• Open circuit in MIL wire: • Faulty combination meter: • Faulty ECM

* Stays lit • Engine operates normally

• Short circuit in service check connector wire: • Short circuit in MIL wire: • Faulty ECM

1 Blinks • Engine operates normally

• Loose or poorly connected MAP sensor connector: • Open or short circuit in MAP sensor wire: • Faulty MAP sensor

7 Blinks • Hard to start at a low temperature (ECM controls using preset value; coolant temperature: 85° C/185° F)

• Loose or poorly connected ECT sensor connector: • Open or short circuit in ECT sensor wire: • Faulty ECT sensor

8 Blinks • Poor engine response when operating the throttle quickly (ECM controls using preset value; throttle opening: 0°)

• Loose or poorly connected TP sensor connector: • Open or short circuit in TP sensor wire: • Faulty TP sensor

9 Blinks • Engine operates normally (ECM controls using preset value; intake air temperature: 28° C/82° F)

• Loose or poorly connected IAT sensor connector

- Open or short circuit in TP sensor wire: • Faulty IAT sensor

10 Blinks • Engine operates normally at low altitude

- Engine idles roughly at a high altitude (ECM controls using preset value; barometric pressure: 760 mm Hg/1,013 hPa)

- Loose or poorly connected BARO sensor connector: • Open or short circuit in BARO sensor wire: • Faulty BARO sensor

11 Blinks • Engine operates normally

- Loose or poorly connected vehicle speed sensor connector

- Open or short circuit in vehicle speed sensor wire: • Faulty vehicle speed sensor

12 Blinks • Engine does not start

- Loose or poorly connected No. 1 injector connector: • Open or short circuit in No. 1 injector wire: • Faulty No. 1 injector

13 Blinks • Engine does not start

- Loose or poorly connected No. 2 injector connector: • Open or short circuit in No. 2 injector wire: • Faulty No. 2 injector

14 No blinks • Engine does not start

- Loose or poorly connected No. 3 injector connector: • Open or short circuit in No. 3 injector wire: • Faulty No. 3 injector

15 Blinks • Engine does not start

- Loose or poorly connected No. 4 injector connector: • Open or short circuit in No. 4 injector wire: • Faulty No. 4 injector

16 Blinks • Engine does not start

- Loose or poorly connected No. 5 injector connector: • Open or short circuit in No. 5 injector wire: • Faulty No. 5 injector

17 Blinks • Engine does not start

- Loose or poorly connected No. 6 injector connector: • Open or short circuit in No. 6 injector wire: • Faulty No. 6 injector

18 Blinks • Engine does not start

- Loose or poorly connected camshaft position sensor connector

- Open or short circuit in camshaft position sensor wire: • Faulty camshaft position sensor

19 Blinks • Engine does not start

- Loose or poorly connected ignition pulse generator connector:

- Open or short circuit in ignition pulse generator wire: • Faulty ignition pulse generator

21 Blinks • Engine operates normally

- Open or short circuit in right O2 sensor wire: • Faulty right O2 sensor

22 Blinks • Engine operates normally

• Open or short circuit in left O2 sensor wire: • Faulty left O2 sensor

23 Blinks • Engine operates normally

• Open or short circuit in right O2 sensor heater wire: • Faulty right O2 sensor

24 Blinks • Engine operates normally

• Open or short circuit in left O2 sensor heater wire: • Faulty left O2 sensor

25 Blinks • Engine operates normally

• Loose or poorly connected right knock sensor connector: • Open or short circuit in right knock sensor wire: • Faulty right knock sensor

26 Blinks • Engine operates normally

• Loose or poorly connected left knock sensor connector: • Open or short circuit in left knock sensor wire: • Faulty left knock sensor

29 Blinks • Engine stalls, hard to start, rough idling

• Loose or poorly connected idle air control (IAC) valve connector: • Open or short circuit in IAC valve wire: • Faulty idle air control valve

33 Blinks • ECM does not hold the self diagnostic data

• Faulty E2-PROM in ECM • Engine operates normally

41 No blinks • Engine operates normally

• Loose or poorly connected connector in gear position switch related circuits

• Open or short circuit in gear position switch wires: • Faulty gear position switch: • Faulty clutch switch: • Faulty side stand switch
